

- **DEER POWER** is designed and formulated to deliver the proper amounts of calcium, phosphorus, both macro and micro trace elements and vitamins that are important for development and overall health of your deer.
- **DEER POWER** will promote and enhance antler growth and development, and improve herd health especially during gestation and lactation.
- **DEER POWER** is complete and ready to use mineral and vitamin supplement for deer. Unlike lick blocks for deer, **DEER POWER** is a loose, granular form where it appears more natural and is much more easily consumed.
- **DEER POWER** contains yeast cultures which help with digestion and absorption of the wide range of food sources that deer utilize.

Antlers are one of the fastest growing tissues in the animal world. Because of their rapid growth if any one or all of the nutrients are in short supply during the growing season, antler growth slows. Antlers grow for only a short period of time, meaning that deficient animals will have less mass and density, reduction or desirable characteristics such as number of points, inside spread and desirable base circumference.

Early spring time is a time to offer mineral to the gestating and lactating doe that will produce and raise a larger and healthier fawn. Whether deer are grazing in a meadow of clover or a corn field, all forages need to be supplemented with mineral to help deer maximize their genetic potential.

DEER POWER

MINERAL

FORTIFIED WITH
ZINC AMINO ACID CHELATE
 FOR MAXIMUM ANTLER DEVELOPMENT
 NET WEIGHT 25 LBS (11.37 KG)

DEER POWER

A free choice vitamin and mineral mix for deer to pick up where mother nature left off!

INGREDIENTS

Mono-calcium Phosphate, Calcium Carbonate, Salt, Magnesium Oxide, Zinc Oxide, Manganese Sulfate, Copper Sulfate, Iron Sulfate, Ethylene-diamine Dihydriodide, Iron Sulfate, Cobalt Sulfate, Sodium Selenite, Yeast Culture, Vitamin A Acetate, Mineral Oil, Zinc Amino Acid Chelate, Natural and Artificial Flavors.

DIRECTIONS FOR USE

Meet the nutritional requirements and maximize the growth rates of your next trophy buck by feeding **DEER POWER** free choice as a vitamin and mineral supplement for deer. In a desired location, clear a small area on the ground and apply 4-5 pounds of **DEER POWER**. Re-apply as needed. The expected level of consumption should be one (1) ounce per hundred pounds of body weight per head per day. Always follow local, state and federal laws and regulations.
